More Than a Leadership Program

The GLAR Leadership Academy is an opportunity to invest in yourself, expand your professional network, and develop the skills and confidence to lead. Through interactive sessions, meaningful connections, and hands-on experiences, participants gain a deeper understanding of the REALTOR® organization, advocacy, governance, and the impact they can make within their profession and community.

Whether your goal is personal growth, professional development, or future leadership within GLAR and beyond, the Academy provides the tools, relationships, and experiences to help you take that next step.

Want to learn more? Connect with a GLAR Leadership Academy graduate to hear firsthand about their experience, what they gained from the program, and how it helped shape their leadership journey.
